摘 要

本研究深入探讨了化学专业软件实训课程的教学现状, 指出了传统教学在内容、模式及考核方面存在的问题。针对这些问题, 本文提出了优化课程体系、强化实践教学、调整考核方式及融合课程思政等改革措施。这些改革旨在提升化学专业软件实训课程的教学质量, 培养学生的实际应用能力和问题解决能力, 为地方经济建设和行业产业发展培养高素质应用型本科人才。

Abstract

The present teaching situation of software practical training course for chemistry major is deeply discussed in this study, and the existing problems of traditional teaching in content, mode and assessment are pointed out. In view of these problems, this paper puts forward some reform measures, such as optimizing the curriculum system, strengthening practical teaching, adjusting the assessment method and integrating the curriculum ideology and politics. These reforms aim to improve the teaching quality of chemical software practical training courses, cultivate students' practical
